

Foreword

This is not a novel, historical or otherwise. It is a collection of historical facts and memories that have been gathered to celebrate the 100-year milestone of the tiny community of Guffey, which is a part of Park County, part of the state of Colorado, part of the United States of America and part of the world. Its history is an integral, though speck-size, component of the history of the human race.

Contents

A little background

--Helen Cahill.....	1
